

Traceable Data

Step No.	Data and Time	Description
0	23-01-2023 18:40:17	New .csv file is loaded with 1.csv name
1	23-01-2023 18:40:19	Skip and Redirect to Handle Missing Values step
2	23-01-2023 18:40:20	Skipped and Redirect to Label Encoding step
3	23-01-2023 18:40:20	Done Label Encoding of Brick column name from data
4	23-01-2023 18:40:21	Done Label Encoding of Neighborhood column name from data
5	23-01-2023 18:40:21	Skipped and Redirect to outlier step
6	23-01-2023 18:40:23	Skip and Redirect to Scaling step
7	23-01-2023 18:40:27	Data splitted into Feature and Target data
8	23-01-2023 18:40:27	Done Scaling with choosing Price as target column by Standard Scaling method
9	23-01-2023 18:40:29	With choosing 0.05 as test size data is splitted into feature_train,feature_test,target_train,target_test
10	23-01-2023 18:40:31	Linear Regression model is build with accuracy score -0.37
11	23-01-2023 18:40:33	Continuing with Linear Regression model redirect to predict step
